### **Albany Firm Wins Industry Award, Adds Employees**

*Ernst Publishing, a leader in the mortgage industry, is growing in the wake of 2012 success*

**ALBANY, NY—January 14, 2013**—Ernst Publishing Company, the leading provider of closing cost data for the real estate and home finance industries based here for the past 20 years, is entering 2013 strong with plans to add workers in the wake of last year's success. The company recently was presented with the 2012 10X Award by Mortgage Technology Magazine for demonstrating an exponential impact on the U.S. home finance industry. Ernst won the award for its 20+ year history of innovation in providing closing cost data to mortgage lenders, title companies and consumers.

"We're very proud to be part of Albany's business environment," said Gregory E. Teal, president and chief executive officer of Ernst Publishing. "Many of our employees have spent their entire careers serving this industry from here in our downtown offices. It's very nice to be recognized by our industry for our contribution, but our best reward is working with the kind of talent we can attract in this area."

Over the past five years, Ernst publishing has doubled in size, increasing the number of people it employs in every department. This year, Teal expects more of the same, especially in light of the company's recent announcement that it had earned its first U.S. patent for technologies it has developed.

Ernst processes more than 120,000,000 transactions annually for its clients through a variety of delivery channels. Find out more about Ernst Publishing's tradition of innovation on the company's website at [www.ernstpublishing.com](http://www.ernstpublishing.com).

#### **About the Ernst Publishing Company**

The Ernst Publishing Company has been the leading authority on land recording requirements for more than two decades. In fact, Ernst's recording fee, transfer tax and title data have been integrated throughout the title and lending industries. Due to RESPA requirements that went into effect in January 2010, accurate recording fees and taxes for recording documents have never been more important. Ernst excels at creating solutions for their clients to manage not just those fees—but also all vendor fees—with unparalleled precision. As a company, our goal is simple: Empower clients to not only meet RESPA's new compliance regulations for Blocks 4-8, but set the industry standard for client satisfaction, an attainable goal due to our technology, impeccable data standards, expertise at creating custom solutions, and network of partners.
