Ernst Publishing Makes List of Industry's Top 50 Providers

Leading provider of closing cost data makes exclusive list of most prominent companies

ALBANY, NY—May 9, 2013—Ernst Publishing Company, the leading provider of technology and closing cost data for the real estate and home finance industries for the past 24 years, announced today that the firm has been listed among the top 50 service providers in the U.S. mortgage lending industry, according to Mortgage Technology magazine. A story that included the list was published in the magazine this month.

“We’re very proud to be recognized for the important role we play in the industry,” said Gregory E. Teal, president and chief executive officer of Ernst Publishing. “The editors at Mortgage Technology have direct knowledge of the firms operating in this space and can be counted on to separate the top providers from the rest of the field. We are very pleased to be recognized again for our impact on this industry.”

Ernst won Mortgage Technology’s 10X award for having an exponential impact on the mortgage lending business last October.

“Ernst Publishing aggregates land recording fee and tax data and maintains a platform for lenders to obtain the information needed to complete Good Faith Estimate and HUD-1 disclosures,” the magazine editor’s wrote in their spring issue. “The Albany, N.Y.-based company was awarded a patent for its technology that calculates and monitors land recording fees, transfer taxes and loan-related fee changes. It also developed a custom mobile app.”

About the Ernst Publishing Company

The Ernst Publishing Company has been the leading authority on land recording requirements for more than two decades. In fact, Ernst’s recording fee, transfer tax and title data have been integrated throughout the title and lending industries. Due to RESPA requirements that went into effect in January 2010, accurate recording fees and taxes for recording documents have never been more important. Ernst excels at creating solutions for their clients to manage not just those fees—but also all vendor fees—with unparalleled precision. As a company, our goal is simple: Empower clients to not only meet RESPA’s new compliance regulations for Blocks 4-8, but set the industry standard for client satisfaction, an attainable goal due to our patented technology, impeccable data standards, expertise at creating custom solutions, and network of partners.
