Ernst Sends Executive Team to MBA Annual Conference

The leading TRID compliance firm will be on hand at the industry's largest trade show

ALBANY, NY—October 15, 2018—Ernst, the leading provider of technology and closing cost data for the real estate and home finance industries for the past 29 years, announced today that it would be sending members of its executive and sales management teams to the Mortgage Bankers Association's Annual Convention, being held in Washington D.C. October 14th through the 17th.

"We're sending a team of executives, equipped with our latest research and tools," said Gregory E. Teal, President and Chief Executive Officer of Ernst Publishing. "TRID 2.0 is now in effect and while it provides some needed clarifications it still makes lenders responsible for providing accurate closing cost information to borrowers. Our search engines make that possible and new innovations we'll be talking about at this important show add value to both lenders and settlement agents."

Ernst will be sharing news about a number of recent innovations, including a new offering that makes it possible for lenders to get guaranteed accurate quotes for title insurance on deals up to \$10 million in any jurisdiction in the country without picking up the telephone. The company will also be visiting with title agents about working with Ernst to make their offerings more readily available to Ernst's national client base.

The Mortgage Bankers Association's annual convention and exposition is the nation's largest gathering of real estate finance professionals. The annual MBA Convention brings together the top companies and their leading executives to share information about the past year and their projections for the year ahead.

To schedule a meeting with Ernst at this event, reach out to the company today or stop by booth No. 551 at the show to talk to one of the company's team members.

Ernst Publishing's programs were used to process 250 million real estate transactions in 2017, making it the most used technology of its kind in the industry. Since the company was founded 29 years ago, Ernst has processed well over 1 billion transactions and unveiled dozens of technologies and products that produce efficiency across the real estate industry. The firm estimates that its technology is in use for 90% of the nation's new loan originations and refinance transactions.

About Ernst

Ernst has been the leading authority on land recording requirements for nearly three decades. In fact, Ernst's recording fees, transfer taxes and title data have been integrated throughout the title and lending industries. Legal requirements have made accurate recording fees and taxes for recording documents more important than ever. Ernst excels at creating solutions for their clients to manage not just those fees but also all vendor fees with unparalleled precision. As a company, our goal is simple: Empower clients to not only meet CFPB's new compliance regulations for the Loan Estimate, but set the industry standard for client satisfaction, an attainable goal due to our patented technology, impeccable data standards, expertise at creating custom solutions, and network of partners. Ernst's patented solutions are trusted and used by 9 of the nation's top 10 mortgage servicers, all 5 of the top title underwriters and 9 out of 10 mortgage originators nationwide, including 9 of the 10 largest banks.
